

Symbols

*The big tree represents me because it is nature and I like nature. You can put a chip in the tree and you can put a chip in my feelings and confidence and I am sensitive.*

Background

*Dogs are my family that hold me up. Dogs are guardians and loyal. The other trees are my friends because they are like me. We are all based on one thing like the human race but we all have our own personalities.*

Colours

*I used yellow, orange, pink and red for my friends as they are nice colours and my friends are nice too. I used blue because I go with the flow. I used green because sometimes I don't like to be the centre of attention and purple is because sometimes I like to stand out. The black part is the bad part of me. It is small because I only have a little bit of badness. Silver is a happy colour and I like to be happy and I sometimes am.*

*Who am I ??*

*Done*
