

Symbols

*I am a fish which suits because I travel a lot and so do fish.
Fish move in schools and I like to be with people when I travel.*

Background

*The reason I chose underwater is because I love swimming and I
am fast at moving in many environments.
I don't have many homes (rocks).
I like to live in a small town with lots of friends near me.
I drew fish (my friends) swimming in seaweed because I can make
a game and stay entertained with almost anything.
The fish are different sizes because my friends and I are all
unique. All of us have different ideas that is why they are so
much fun because we can play for so long and not get bored.*

Colours

*I used orange for the fish and the sunsetting because it is a fun
colour to me that shows energy and movement like a game of tag,
which I find entertaining.*

*I used yellow as my colour because it is a colour of happiness and
I am usually happy and it is easy for me to cheer up my friends
and make them laugh because it is fun.*

Who am I???
