

Symbols

*I am a soccer ball because I am easily deflated by not being busy.
I am best when I am busy, like a soccer ball. A soccer ball without anyone using it is useless, just like me.*

Background

*The soccer goal represents my many goals in life.
The many balls in the net represent my friends, but like a game of soccer I really only need one.*

Colours

*All my colours I have chosen are crazy, fun and stand out because most of the time I like to stand out in a crowd.
The colours are all messy because I am not a neat-freak and I don't mind if people aren't perfect, because I definitely am not.*

Who am I???
